BOOK SYNOPSIS

Price Action Breakdown is a book on pure price action analysis of financial markets. It is based on trading the pure price action using key supply and demand levels. WHAT WILL YOU LEARN BY READING THIS BOOK? Proven price action concepts and techniques to find the market trend, thoroughly analyze its overall strength and make the most informed judgments possible about its termination. Develop a clear market structure just by interpreting the price movements on your charts. How to discover the footprint of the big financial institutions entering the market. Perhaps the most important, you will learn a complete thought process that will make you a very versatile trader, able to adapt to the constantly changing market conditions. This will change the way you see the market and the way you trade it. The methods explained in the book will give you the edge you need in order to become consistently profitable while trading Forex, Futures, Stocks, Options, Commodities, Indices and all the liquid markets.
